1. Why BattleRoyale?

There are a lot of last-man-standing shooters coming out lately and the popularity of this gaming style is ever-rising.

But until today, there is no blockchain-powered game where you can blow away the face of your opponents to prove yourself as the one and only BattleMaster and earn crypto while doing that. Well, until today.

This will change with our BattleRoyale crypto shooter!

You do not need any special equipment to join this amazing battle. A mediocre-performance computer will be enough to participate.

Just connect your WEB3 wallet with our website and let the opponents eat your bullets!

2. What is BattleRoyale?

BattleRoyale will be the first last-man-standing shooter powered by the revolutionary Blockchain technology.

Fight against other people just for fun (FREE2PLAY) or bet on yourself (PLAY2EARN) and earn BATTLE tokens for succeeding in a match of 30 people and being the BattleMaster!

Equip your character and weapons with awesome-looking skins to make your win look even more fancy. Skins will be available as unique NFTs, which can not only be used to impress other players, but can also be traded on NFT marketplaces.

2.1 Process of the game

As the name suggests, BattleRoyale is a blockchain-based game in the very popular style of a last-man-standing shooter.

Before starting a game, you choose a character from our character selection. The choice of the character has no influence on the gameplay, it is only a visual distinction.

At the start of the game you fly over the game map and choose a landing point. After landing, you have the task of finding weapons as quickly as possible and filling up your loot with them.

All weapons can be found in different strengths, and there will also be other surprises that you can pick up. Once your loot is well filled, it's time to go hunting for enemies.

Unlike already established last-man-standing shooter games, our game only allows 30 players per round. This increases the chance for even below-average players to get one of the top places.

A round goes until only one player is left standing, the map gets smaller during the game.

2.2 FREE2PLAY-mode

In FREE2PLAY mode you don't have to bet any BATTLE tokens. However, you will not receive BATTLE tokens as winnings, but BATTLE vouchers. However, these BATTLE tokens can be converted into BATTLE tokens if they accumulate sufficiently. The conversion rate fluctuates permanently, depending on the income from the operator fee.

2.3 PLAY2EARN-mode

In PLAY2EARN mode, you must wager your BATTLE tokens as a stake. Each of the 30 players places the same bet. In this mode, the BATTLE Tokens are thrown into a pot, our operator fee is deducted, and the rest is distributed among the players in 1st, 2nd, and 3rd place.

The distribution of prize money in PLAY2EARN MODE is:

1st 50%

2nd 30%

3rd 20%

2.4 Operator fee

The operator fee is 5% and will be charged only in PLAY2EARN MODE. This fee in turn is used for the following purposes:

- Return to BattleRoyale LTD for development and promotion of the project (75%).
- Funding of the FREE2PLAY mode (25%)

2.5 Browser wallet support

Our goal with BattleRoyale is to provide a fun, entertaining, exciting but also accessible platform for everyone.

Playing BattleRoyale will not necessarily require a downloadable desktop app. While we will offer this feature as well, it will still be possible to play easily via our browser version. Just log in with MetaMask, TrustWallet or any other browser wallet and start playing!

2.6 Minimum computer requirements

As mentioned earlier, we want to make BattleRoyale available not only to wealthy people with expensive equipment, but to virtually everyone.

Therefore, despite extensive graphics, we have made it a priority that the minimum requirements to play our game are not too high.

To play BattleRoyale, only the following minimum computer requirements are necessary:

Browser with web3 support (e.g. Metamask Extension)

Memory: RAM 4GB+

CPU with 2 CPU cores

Stable internet connection

For a proper gaming experience, we currently recommend the following minimum requirements:

Video Card: GTX960 G1 (4GB version)* / RX 580 4GB

CPU: Intel i5 series or AMD Ryzen 3 series

Memory: 4GB or higher

HDD: 5GB free Diskspace

* DirectX 11+ supported

Specifications are still subject to change

2.7 Cost-effective gameplay through Binance Smart Chain

By implementing our BATTLE token on the Binance Smart Chain, we avoid the high fees of the Ethereum blockchain and therefore do not need Layer 2 solutions like Polygon/Matic.

Participation in a PLAY2EARN mode is thus in the cents range, while the FREE2PLAY mode is free to play and only when exchanging BATTLE vouchers into BATTLE token gas fees apply.

Also our NFTs will be available on the Binance Smart Chain, so even when sending and trading BattleRoyale NFTs the gas fees will be very low.

2.8 NFTs

One of the most important building blocks of our BattleRoyale shooter is our NFTs. To visually upgrade your characters, you have the option to go beyond the standard look by purchasing NFTs and equipping your character with them. These NFT-based skins do not improve your character, it is just a visual upgrade.

However, these NFTs are not only useful to stand out from your fellow players.

All NFTs will be available in different degrees of rarity and will be tradable. It is expected that as BattleRoyale becomes more widespread and accepted, NFTs will also increase in value.

Buying BattleRoyale-NFTs is therefore not only useful to show off in-game, but can also give you a real profit in real life.

2.9 BATTLE Token

The heart of our project. BATTLE is a BEP-20 token and is mainly used as a game stake to play the PLAY2EARN mode.

However, it can also be obtained as a profit in FREE2PLAY mode.

But of course it is also interesting for non-gamers. Just like all other cryptocurrencies, our BATTLE token will be listed and tradable on exchanges. This will open up the possibility for traders to tap into ROIs from existing P2E successes with the help of our BATTLE token.

Last but not least, BATTLE is of course also the vehicle to finance the FREE2PLAY mode as well as expansions and renewals in our company via the operator fee and to guarantee a steady growth of BattleRoyale in the sense of all participants.

3. Information around the BATTLE Token

The issued tokens will be distributed as follows:

| | |
|-----|-------------------------|
| 10% | Private Sale |
| 25% | Public Sale |
| 05% | Company |
| 10% | Marketing |
| 10% | Partnerships |
| 20% | Development / Ecosystem |
| 20% | Staking |

TOTAL TOKENS : 1.000.000.000 BATTLE

Blockchain: Binance Smart Chain (BSC)

Available for Private Sale: 100.000.000 BATTLE

Available for Public Sale: 250.000.000 BATTLE

End of Public Sale: 30th of June 2022

Listing of BATTLE: 1st of July 2022

Contract: <https://bscscan.com/address/0x6df2e09ceef62c7e8b6276210b58b0421d609f95>

4. Roadmap of BattleRoyale

| | |
|---------|---|
| 1Q 2021 | Idea + Market Research |
| 2Q 2021 | Start of Development |
| 3Q 2021 | Formation of Battle Royale Ltd. Company |
| 4Q 2021 | PrivateSale |
| | |
| 1Q 2022 | Start of Public Sale |
| 2Q 2022 | Marketing Campaigns and Partnerships |
| 3Q 2022 | Exchange Listings + Availability of Skins as NFTs + Game Launch |
| 4Q 2022 | Extend Marketing Campaigns and Partnerships |
| | |
| 1Q 2023 | Continious Development of the game |
| 2Q 2023 | Continious Developement of new NFTs |

5. Referral System

Do you want to earn money with our project without investing by yourself?

Do you have friends who might be interested in our ICO?

Or do you just want to explore further profit opportunities in addition to your investment in our coin?

Use our referral system to inspire family, friends and acquaintances for BattleRoyale and our BATTLE token to receive a 5% share of the investment of your referrals within 24 hours, directly into your wallet!
